T8 GLASS TUBES

24W

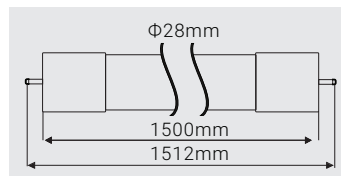

SYLEDT24W

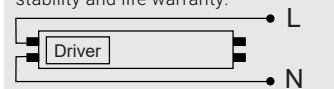

The **Synerji 24W LED T8 Glass Tube** is the perfect replacement solution for the traditional fluorescent tubes, saving you energy and money. The tube boasts a power factor of 0,9, wide 270° directional lighting and 25 000 hours of lamp life. Furthermore, the tube is plastic coated, making it suitable for the food industry. It features PVC end caps and single end power input. The built-in driver supplies power with no compromise on stability and life warranty.
